CEU University

The first in a year-long series of CEU credit courses

Color Theory & Its Application—CEU

“Why do two colors, put one next to the other, sing? Can one really explain this? No. Just as one can never learn how to paint.” - Pablo Picasso

Please join Feras Irikat, Director of Design and Marketing for Stone & Pewter Accents, as he examines the impact of light, vision and texture on color in the design environment.

Feras will lead a presentation outlining the basics of color theory and psychology followed by an engaging discussion of how materials such as wood, textiles, glass and ceramics are fully integrated to create and define cohesive, beautiful spaces.

This presentation is ASID and IIDA credited.

For any other affiliation, a certificate will be provided for submittal.

Color Theory and Its Application

Thursday, March 6

Choose from either session:

9:30–11:00 a.m. or

3:30–5:00 p.m.

Light refreshments served at both sessions.

Register early—seating is limited!
